Later, you'll be driven to the ARENAL VOLCANO that has been erupting continuously since 1968. The frequency and intensity of its eruptions are truly surprising and at nighttime, the sight of molten lava tumbling down Arenal's slopes is absolutely breathtaking. As a curtain call to today's activities, you'll visit the hot mineral springs of TABACON to relax in the warm mineral waters of one of the Hot Springs & Restaurant. Later at dinner, you'll be able to view the fireworks of Arenal's nightly eruptions.

#### **DAY 2: CANO NEGRO WILDLIFE RESERVE**

An early breakfast and it's off to the Cano Negro Wildlife Reserve, boarding boats to explore the tropical rain forest's 1,600 acre lake in the midst of 18,000 acres of marsh land. The biological diversity is astounding and many species of wildlife may be encountered nowhere else. Capuchino, spider, and howler monkeys, sloths, garfish, roseate spoonbills, toucans, herons, and crocodiles, and turtles basking in the sun are a common sight, and coming upon the spoor of an elusive jaguar is always a possibility.
